

VOLKSWAGEN GROUP

APPRENTICESHIP PROGRAMME

The Volkswagen Group Apprenticeship Programme

Mechanical, Electrical and Trim (MET) Technician

An outstanding MET Technician Apprentice

To be an outstanding MET Technician apprentice, you will need the right qualifications to start you on your learner journey. For the Volkswagen Group MET Technician apprenticeship, this is a minimum of GCSE (or equivalent) grades 9 - 4 (A - C) in English, Maths and Science.

An ideal MET Technician apprentice will be able to work methodically, have attention to detail and be a team player.

If you can meet these requirements and believe in the brand values of Volkswagen Group, you can stand out against the competition to become an outstanding apprentice.

What does a MET Technician do?

Our MET Technicians work methodically to return customer vehicles to factory standards, diagnosing and fixing faults and distributing work as required to other specialists.

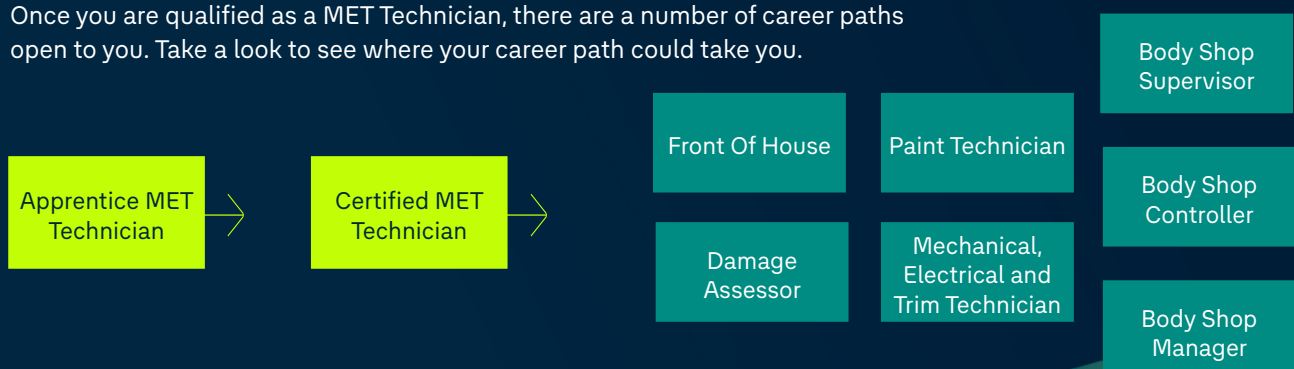

Due to the high level of technology within our vehicles you will develop skills in mechanics and electrics.

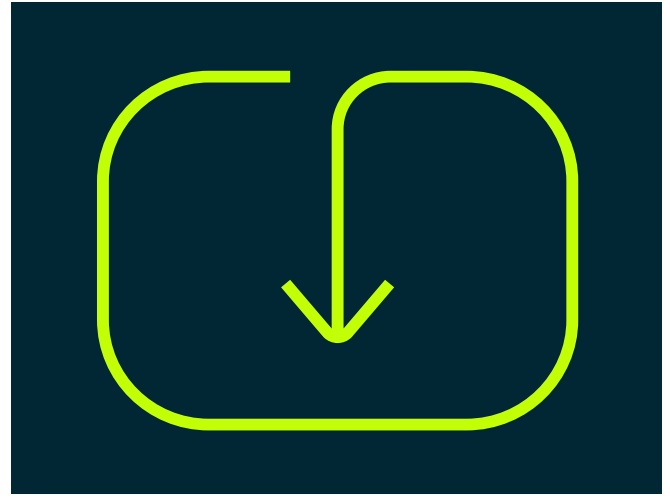

While the type of work carried out will vary according to location, some of the typical day to day duties include:

- Removing and fitting basic mechanical, electrical and trim components.
- Removing and refitting non-structural body panels.
- Removing, renewing and refitting mechanical and electrical systems and vehicle trims following accident damage.
- Carrying out vehicle inspections.
- Identifying the extent of vehicle damage.
- Accessing and removing damage components.
- Installing new components.
- Using specialist equipment and techniques including the Vehicle Diagnostic machine and Four Wheel Alignment equipment to name a few.

Driving your career forward

Once you are qualified as a MET Technician, there are a number of career paths open to you. Take a look to see where your career path could take you.

Apprenticeship vs. University

In today's climate of budget cuts and the high cost of tuition, the option of going to university and continuing your education may not be the right choice for everyone and a degree may not necessarily be a requirement for many employers where experience and work-based skills are of more value.

An apprenticeship will give you the work experience and qualifications that you need to earn while you learn without racking up debt.

In this competitive marketplace, developing the right skills can help you to get ahead and stay ahead. With an apprenticeship you will be getting a head start in your career with a nationally recognised qualification and employment within Volkswagen Group.

Top benefits of an apprenticeship

- A chance to earn while you learn.
- No tuition fees or extra debt.
- Nationally recognised qualifications.
- Volkswagen Group approved certifications.
- Work experience with a reputable employer.
- Training in the skills and knowledge that you need for your job role.
- Support throughout your learner journey.
- Personal and professional development.
- Great new experiences and meet new people.
- The first step towards a rewarding career in the automotive industry.
